E

EXTRAORDINARY DISPOSITION

Force OF NATURE

Maserati has a history of naming its cars after the world's most famous winds. It started in 1963 with the legendary Mistral. Then came the Ghibli, the Bora and the Khamsin. And in 2016 the Levante joined the illustrious Maserati range. The wind that bears its name blows across the Mediterranean and can change from benign calm to gale force in an instant. The Maserati SUV has a similar nature, although its powerful forces always remain under perfect control. In true Maserati grand touring tradition, nothing can disturb your comfort – whatever the speed, whatever the distance. This vehicle, for instance, can reach 100 km/h from a standing start in an astonishing 5.2 seconds. At the same time, you are carried in the elegantly appointed, perfectly balanced luxury of a large and spacious SUV. Even when the going gets rough, the Levante maintains its elegant composure thanks to our intelligent Q4 AWD system.

As for the design, the Levante is all Maserati, both in terms of its dramatically graceful style and purity of dynamic purpose.

There are two trims available: the Levante GranLusso and the Levante GranSport. With the GranLusso, the style is focused on luxury. With the GranSport, it's more about engaging driving dynamics. Each offers a Maranello-built V6 petrol engine, an enhanced choice of paint colours, trims and alloy wheels, new full-LED Adaptive Matrix headlights available from September, and advanced Integrated Vehicle Control that delivers increased responsiveness and driving safety. This final innovation comes as standard across all versions. A new journey has begun – with the Maserati of SUVs.

A

A HISTORY OF CHARACTER

The TRUE SPIRIT OF MASERATI

The Levante SUV embodies the enduring, intrepid and endlessly progressive spirit of Maserati – and it is part of a story that dates back over 100 years. Maserati officially opened for business in **1914** at number 1 Via de' Pepoli in Bologna. But the wheels were in motion long before that. In **1900**, Rodolfo Maserati's eldest son Carlo built a single-cylinder engine and fitted it to a bicycle. He then raced it to victory in a punishing, long-distance rally in northern Italy. Carlo was just 17. A short while later, the intrepid youngster designed another engine and fitted it to a wooden car chassis. This, arguably, was the world's first Maserati vehicle. The Maserati drive to innovate and passion for speed made the transition into elite motor sport inevitable. It was a move that reaped countless rewards on the world stage. Here are just a few of the many historic successes: in **1926**, Alfieri Maserati drove the Maserati Tipo 26 to victory in its first ever race – the Targa Florio in the mountains of Sicily. In **1939**, Wilbur Shaw won the Indianapolis 500 at the wheel of the Maserati 'Boyle Special' 8 CTF at an average speed of over 185 km/h. He repeated this incredible feat the following year, making Maserati the only European manufacturer to win the Indy 500 twice. In the late **1940s**, Maserati took a luxurious turn by creating the A6 1500 production grand tourer. This was built in our current home in Modena and featured sensuous Pininfarina coachwork. The convertible A6G Frua Spyder soon followed. Since then, all Maserati production models have followed this unique formula, offering race-bred performance, captivating Italian design and the luxuries and comfort you would expect from a prestigious grand tourer. All this is delivered by the latest Maserati Levante. And the striking SUV design adds yet another compelling dimension to the experience.

E

EXTERIORS

Maserati

DESIGN LANGUAGE

When it comes to design language, the Levante speaks fluent Maserati. And wherever you look, the messages are clear and compelling. Visual and functional highlights include an aggressively sculpted front grille with chromed bars, which is more imposing than ever given the elevated SUV proportions. There are also muscular, arching front wings bearing the iconic triple air vents. And there's the ever-present Saetta logo in the steeply tapered, coupé-like rear section. Such details, along with frameless door windows, the subtle spoiler and quad tailpipes, make an emphatic statement about the unique, all-round strength of this vehicle.

Sophisticated NEW EXTERIOR SHADES

To enhance your paint options as well as the eye-catching allure of Levante, two striking new shades have recently been added to refresh the exterior colour palette: Rosso Potente and Blu Nobile. Each reflects a different side of the Maserati personality, yet both capture the boldness and sophistication for which the Trident is renowned.

ROSSO POTENTE TRI-COAT PAINT

Inspired by the iconic colour Rosso Magma – launched to commemorate the Maserati centenary – the new Rosso Potente is a statement colour created to celebrate the racing heritage of Italian sports cars. Just one glimpse of this bold hue brings to mind the glamour of circuits such as Monte Carlo and the black and white of the chequered flag sweeping victoriously overhead. As the name would suggest, this is a powerful red; one that overshadows everything else on the road. Rich and captivating, demanding both respect and attention, this dramatic colour is as intoxicating as power itself.

BLU NOBILE TRI-COAT PAINT

Deep, dark blue with sparkling glass flakes that glisten when exposed to sunlight and enhance the unique design of the Levante. Shimmering like the tips of the waves in the rolling ocean, this is not so much a colour as an enriching visual experience that transforms each time the car flashes past. Ever since the times of the ancient Egyptians, blue has been blessed with noble connotations, standing for royalty and favoured by rulers. This imperious shade of blue reflects these aristocratic traditions and perfectly complements the effortlessly flowing lines of the Levante.

INTERIORS

Enter THE UPPER ATMOSPHERE

The interior of the Levante exudes authentic Maserati character. That means elegant Italian style, meticulously crafted finishes and a race-bred energy that inspires long-distance, luxurious travel. There is also a liberating feeling of all-round space on board. This, along with the commanding SUV driving position, may come as a surprise given the coupé-like exterior. Interior highlights include optional Pieno Fiore Natural leather on the seats, hand-stitched leather on the dashboard side panels and other surfaces either in genuine wood or Black Piano trim. The infotainment system comes complete with an elegant aluminium rotary controller. And there is an abundance of clever storage, plus the flexibility of 60/40-folding rear seats and a 580-litre luggage compartment. This is accessible courtesy of an optional kick sensor, which allows you to open the tailgate by simply moving your foot beneath the rear bumper. Other practicalities include dual-zone or optional four-zone climate control and an Air Quality Sensor.

New INTERIOR TRIMS

The purposeful ambience of the cabin is another aspect that creates a strong point of difference for Maserati. Three lavish new interior trims add to the appeal of this sanctuary for the driver, and further increase the options for personalisation.

REGIMENTAL OPEN PORE

A new open-pore wooden veneer inspired by textures found in the fashion industry and revered by the leading couturiers of Milan. The resulting effect suggests ultra-modern luxury with more than a hint of sportiness. Like all our new trims, Regimental Open-Pore took around a year to develop from original concept to finished product, as our artisans in Italy patiently perfected every detail. The result is both stunning and sophisticated.

MATT CARBON FIBRE WEAVE

Inspired by the Levante Trofeo with its host of exterior carbon fibre features, the 3D effect of the weave pattern adds to the dynamic credentials inside. Every car is completely unique as the carbon pattern is real, ensuring that it will be slightly different

every single time. The other beauty of carbon is its extraordinary natural strength, which prevents the trim from marking and protects the integrity of the Levante interior from one year to the next.

HIGH-GLOSS METAL WEAVE

This stylish new trim is created by using metallic meshes, and is inspired by contemporary architecture. The elegant chevron weave pattern adds to the sporty feel of the cabin. The quality of the metal net is so high, and so soft to the touch, that it could even be used to tailor a shirt. The weave has also been designed to remain comfortably cool in summer temperatures. Like the carbon fibre weave, every car is unique as the trim is authentic and cannot be replicated.

G

GRAN DUO

GranLusso

GranSport

Levante GranLusso
LUXURY IS ITS FAVOURITE SPORT

For drivers who prefer extra touches of luxury, the GranLusso trim offers a host of refinements. Adding to the protection plates beneath the front bumper – a feature that clearly signposts the four-by-four potential – there are now eye-catching chromed inserts. The roof rails have a metallic trim, too.

Elsewhere, the GranLusso badge is impeccably integrated into the front wings. The side skirts and other fine details are perfectly colour-matched with the rest of the exterior, as is the rear spoiler. The brake calipers are finished in a striking black.

Accent ON LUXURY

All this, however, can be enhanced with the interior luxuries of the Levante GranLusso. It offers front Comfort seats with 12-way power adjustment and a memory function. There's the choice of full premium Italian leather, Pieno Fiore natural leather or Ermenegildo Zegna silk upholstery. This is complemented by a premium leather dashboard, armrest and door panels, a striking Black Piano trim and an optional power-adjustable steering wheel finished in fine wood.

The list includes: an advanced navigation system, front and rear parking sensors, illuminated doorsills lighting the threshold to the Levante GranLusso and the optional Harman Kardon Premium Sound system. This is also the only car in the SUV segment to offer power foot pedals as an option.

Levante GranSport

DYNAMIC ELEGANCE

The Levante GranSport offers explicitly dynamic impact. With the exterior styling, the sharper edge is expressed with fine dynamic detailing all-round. At the front, the large and assertive front grille, in Black Piano, is complemented by black bars. The recently added lower grille comes with Black Piano blades, while the new Sport bumper and roof rails have the same assertive trim.

Like the GranLusso, the GranSport trim option also features side skirts and other details in the body colour. New additional features to the rear exterior include a Sport bumper, a Black Piano extractor and a Matt Black insert. There are dashes of sporting colour too, as the GranSport's mighty 20" Nereo light alloy wheels are fitted with calipers in a bold red.

More SPORTING STYLE

The GranSport trim offers front Sport seats, also with 12-way power adjustment and memory. In addition, there's a power-adjustable Sport steering wheel with multi-function buttons, brushed chrome gearshift paddles and Sport pedals with the aluminium Sport finish. The motor sport feel can be further intensified with a range of carbon trim choices. As for the day-to-day practicalities, the GranSport offers front and rear parking sensors and an advanced navigation system.

E

ENGINES

Epic power SMOOTH REFINEMENT

The V6 engines for the Levante are designed by Maserati Powertrain and built at Ferrari's Maranello plant exclusively for Maserati – they deliver on all expectations.

The engines in the different Levante versions offer everything you would expect of a Maserati – from snarling responsiveness to effortless long-distance refinement. They are also remarkably efficient.

To achieve this characteristic balance, developers at Maserati Powertrain in conjunction with the Ferrari Powertrain development team adopted a twin turbocharger design – one for each cylinder bank – plus the latest valve control and high-pressure direct injection technology. Twin turbocharging isn't new, of course. It was pioneered by Maserati with the Biturbo of 1981, an innovation the rest of the automotive industry has only recently caught on to.

Nothing can match the Maserati engine note, however. With the Levante, a lightweight exhaust system with bypass valves ensures that it's delivered to maximum effect. When Sport mode is active – which also sharpens the vehicle's handling parameters – the valves open, providing the shortest, highest-energy route

for the exhaust gases. The result is optimised performance and that unmistakably resonant, spine-tingling sound.

350 CV V6 TWIN TURBO

The V6 engine in the Levante delivers 350 CV at 5,750 rpm and a peak torque of 500 Nm. The zero to 100 km/h sprint is dispatched in just 6.0 seconds and the top speed is an impressive 251 km/h. Combined fuel consumption is 11.6-12.0 litres/100 km and combined CO₂ emissions are between 268 and 278 g/km.

430 CV V6 TWIN TURBO

The Levante S is equipped with the most powerful version of the V6. Maximum output has been raised to 430 CV and is delivered at 5,750 rpm. With overboost active in Sport mode, peak torque of 580 Nm is on tap. The sprint from 0-100 km/h is dispatched in 5.2 seconds and the top speed is 264 km/h. Combined fuel consumption and CO₂ emissions are 11.8-12.2 litres/100 km and 273-282 g/km.

The ART OF DIESEL – BY MASERATI

The turbocharged V6 in the Maserati Levante diesel offers a captivating combination of massive power, long-distance refinement and impressive efficiency.

Developing impressive output of 275 CV and a mighty 600 Nm of torque, the V6 diesel takes the Levante from zero to 100 km/h in a fast and smooth 6.9 seconds and on to a top speed of 230 km/h. Notably, 90 per cent of peak torque is available below 2,000 rpm for commanding day-to-day driving performance.

Equally remarkably – and continuing the long-held Maserati tradition of grand touring – the Levante can easily achieve over 1,000 km without needing to refuel. As for economy and emissions, the figures speak volumes. Combined fuel consumption is 7.9-8.3 litres per 100 km and CO₂ emissions are between 207 and 220 g/km.

The engine features a host of innovations that combine to maximise fuel efficiency, boost performance and keep emissions down. They include Common Rail direct injection, Exhaust Gas Recirculation and variable geometry turbocharging.

AUTO START-STOP

More efficiencies are gained from Auto Start-Stop technology, also featured with the petrol engines. With the diesel, this leads to overall fuel and CO₂ emission reductions of up to 6 per cent. The function automatically deactivates in Sport mode and when the driver turns off stability control.

MASERATI ACTIVE SOUND SYSTEM

The Maserati Active Sound system makes it abundantly clear that this engine is all Maserati. Two sound actuators underscore the engine's most rousing tones and modulate them according to driving style. And when the driver presses the Sport button, the vocal performance becomes truly inspirational.

TECHNOLOGY

GranLusso

Performance AND COMPLETE CONTROL

The advanced ZF automatic gearbox gives complete, direct and efficient control of the huge power and remarkable flexibility of the Levante.

With a new two-lane gear lever featuring a dedicated Park button, the sophisticated eight-speed ZF automatic gearbox delivers improved comfort, faster gear shifting, better fuel consumption and increased refinement. The new system negates the need for the Manual button, as the driver can now simply push the gear lever into the left channel to select this mode. The different settings, listed below, can be selected via the switches next to the gear lever.

AUTO NORMAL MODE

This default mode provides smooth gearshifts at low revs to maximise ride comfort and minimise fuel consumption. When a sportier style of driving is recognised, upshifts automatically take place at higher engine speeds.

MANUAL NORMAL MODE

With Manual Normal, the driver can change gear using the optional paddles behind the steering wheel or the lever on the central tunnel. The system automatically shifts up when approaching the rev limiter, and shifts down at the moment that best suits the recognised driving style.

AUTO SPORT MODE

In this mode, gear changes are faster (under 100 ms) and occur at higher revs for a much sportier driving experience. The exhaust valves also open to ensure that the iconic Maserati engine sound is heard at its rousing best. Additionally, the Electronic Stability Program (ESP) is less intrusive, giving more control to the driver, while accelerator responses are sharpened up. What's more, on petrol-engine versions, overboost is activated. This gives access to peak torque at a considerably reduced engine speed. Integrated Vehicle Control (IVC) adds to the excitement, giving the driver even more dynamic control.

MANUAL SPORT MODE

With Manual Sport, the driver is in full command of the transmission. A host of other factors also come in to play, making driving the Maserati even more exhilarating. The overboost function activates for maximum performance, the ESP is less intrusive, the exhaust valves open up for an even more aggressive tone and gear changes are quicker and sharper. The accelerator pedal mapping is also more aggressive and the engine can be pushed to the red line without the system intervening. The only automatic feature is downshifting if the revs drop too low.

GranSport

MANUAL OFF-ROAD MODE

When the driver selects a chosen speed in this mode, the Levante continues at that pace, even when climbing. This is extremely useful, for example, when the driver has to concentrate on a challenging ascent. This is because the SUV will effectively drive itself while the driver takes care of the steering.

AUTOMATIC OFF-ROAD MODE

This mode retains all the benefits of the Off-Road setting but adds the convenience of automatic shifting. This means the driver can give full focus to the rewards of driving the Levante.

I.C.E. (INCREASED CONTROL & EFFICIENCY) MODE

Not just for use in icy or low-grip conditions, this mode ensures an even quieter, smoother ride plus lower fuel consumption. In I.C.E. mode, gear changes are almost unnoticeable and take place automatically at the optimal point to increase fuel efficiency and cabin refinement. The boost in the engine is also dialled down, the exhaust valves remain closed until 5,000 rpm and smoother accelerator mapping provides unrivalled comfort.

An SUV WITH THE SOUL OF A GT

The Levante is a high-riding and luxurious SUV with confidence-inspiring abilities in rough terrain. It's also engineered, from the ground up, to drive like a sporting grand tourer on the open road.

ACTIVE AIR SUSPENSION

The advanced active air suspension raises or lowers the vehicle according to need or preference. With six settings to choose from, the driver can select whatever height is appropriate for the road or terrain, from a high clearance for off-roading to a low setting for fast, efficient and smooth motorway driving.

Q4 INTELLIGENT ALL-WHEEL DRIVE SYSTEM

This system is developed to deliver the hallmark Maserati rear-wheel-drive experience, even when grip is poor. In normal conditions, the Q4 system sends all torque to the rear wheels, for perfectly balanced Maserati driving dynamics and optimal fuel consumption. If traction is lost due to sudden acceleration or low grip on the rear axle, Q4 can alter the torque split from 100 per cent rear-wheel drive to 50-50 between the front and rear wheels. It all happens in an imperceptible 150 milliseconds – or less than the blink of an eye. Torque vectoring and a mechanical Limited-Slip Differential at the rear axle, unique for this class of vehicle, also provide essential support when it comes to dynamic driving stability.

SPORT SKYHOOK SYSTEM

This continuously adapts shock absorber damping to suit the situation. The system uses sensors that monitor the movement of each wheel and the car's body to determine the road conditions and how the car is being driven. It then instantly adjusts the settings of each damper accordingly. The basic setting prioritises

ride comfort, but if more dynamic handling is required, a simple press of the Skyhook Sport Setting button on the Drive Mode control immediately firms up the shock absorbers.

ELECTRIC POWER STEERING (EPS)

All Levante versions feature EPS as standard, without compromising the responsiveness that is such an important part of our DNA. This system is designed to provide the excellent road-feel expected from Maserati. It is particularly efficient as it is powered directly by the engine when needed, so there is no need for a hydraulic pump. What's more, with no pressurised fluid under the bonnet, less maintenance is required. The system adapts its weight according to speed, being lighter and easy to turn when manoeuvring in a tight spot, for instance. Conversely it has a weightier, more connected feel at high speeds. Another plus point is integration with active Advanced Driving Assistance Systems such as Highway Assist, Lane Keeping Assist and Active Blind Spot Assist.

AIR SHUTTER

With its drag coefficient of just 0.31, no other SUV in this class cuts through the air more effectively than the Maserati Levante. The front grille contributes in this way by continuously modulating airflow to the engine compartment. This delivers a host of benefits, including optimal engine temperature, reduced aerodynamic drag, improved performance and better all-round efficiency.

GranLusso

Innovation FOR A CONNECTED WORLD

A cutting-edge infotainment package for the 2019 Levante puts the focus on intuitive engagement, real-world assistance and adaptable enjoyment.

The interior of the Levante is built around a driver interface that is intuitive, uncluttered and simple to use. The instrument cluster features large analogue gauges for the tachometer and speedometer, alongside a 7" TFT display. Major dynamic functions are incorporated into the buttons alongside the gearshift, while other on-board settings can be set using the Maserati Touch Control Plus (MTC+) infotainment system at the centre of the dashboard, or the steering wheel controls for the 7" TFT display.

MASERATI TOUCH CONTROL PLUS

The 8.4" Maserati Touch Control Plus (MTC+) unit takes pride of place at the centre of the Levante dashboard. With very few buttons plus a highly responsive interface, it is designed to help the driver maintain focus on the road ahead and mastering it is intuitive and easy.

MTC+ can be operated in three ways: via the multi-touchscreen, the rotary control in the central console, or through voice commands. The system incorporates the car's radio, Bluetooth®, and satellite navigation system (where fitted), along with connections to external sources such as mobile phones, tablets and laptop computers.

Using Aux-in, USB sockets or the SD card reader, you can also play music. In addition, MTC+ controls the front seat heating, as well as the ventilation, steering wheel heating and the operation of the rear sunblind, where fitted. The screen displays the rear view, with guidelines, for the reversing camera, too.

The state-of-the-art system also features both Apple CarPlay® and Android Auto® mirroring functions. In addition, for iPhone® users, Apple's Siri® system acts as a personal assistant, allowing them to carry out tasks using voice command. Through naturally spoken language, it is possible to make a call or access music, messages, reminders, emails, websites and much more.

WORLD-CLASS AUDIO ENTERTAINMENT

The Levante is offered with three audio system choices. A powerful 280-watt, eight-speaker package is fitted as standard and sets the bar at an impressively high level. You can, however, move up to one of two outstanding options designed for true audio aficionados – the 14-speaker Harman Kardon Premium Sound system and the 17-speaker Bowers & Wilkins Surround Sound system.

SAFETY

Advanced DRIVING ASSISTANCE SYSTEMS

The Levante is equipped with an impressively comprehensive range of Advanced Driving Assistance Systems. It means even greater peace of mind, whether you're on a continent-crossing grand tour, dashing across town or taking on rough terrain.

TRAFFIC SIGN RECOGNITION

It can be easy to miss traffic signs sometimes, for all sorts of reasons. This is where Traffic Sign Recognition comes in. It monitors three types of sign: speed limits, temporary speed limits due to conditions such as heavy rain, and no-overtaking zones. It then displays the signs digitally in the cluster display.

HIGHWAY ASSIST SYSTEM (HAS)

This combines Adaptive Cruise Control with Stop & Go and Lane Keeping Assist to make life easier on motorways, while achieving level 2 semi-autonomous driving. HAS automatically keeps the vehicle centred in its lane, at a pre-selected speed and at a chosen distance from the vehicle ahead. It will even decelerate the Levante through to a standstill as the traffic dictates. To ensure safety, the driver's hands must remain on the steering wheel at all times.

LANE DEPARTURE WARNING SYSTEM

Thanks to a camera that monitors road markings, the Lane Departure Warning system helps the driver keep the vehicle in the chosen lane on motorways and main roads. This reduces lane drift and the possibility of lateral collisions by providing a warning when the vehicle crosses lane markings without the turn being activated.

LANE KEEPING ASSIST (LKA)

This provides valuable support if the driver is about to unintentionally leave a lane. A digital camera behind the rear-view mirror monitors road markings to keep track of the course ahead. If the Levante appears to be moving out of lane unintentionally, LKA actively steps in with corrective steering torque.

ACTIVE BLIND SPOT ASSIST

With this system, a warning icon appears in the door mirrors when a vehicle enters the driver's blind spot. Three levels of support, including corrective steering torque, can be selected if the driver nonetheless initiates a lane change.

SURROUND VIEW CAMERA

This provides a clear 360° view around the car, helping with parking and highlighting otherwise hidden obstructions. Images are captured by two cameras beneath the door mirrors plus front and rear cameras and shown on the main display screen.

ADAPTIVE CRUISE CONTROL WITH STOP & GO

Adaptive Cruise Control constantly monitors the vehicle ahead, maintaining a pre-set distance. With the Stop & Go function, the car will also adjust to the speed of the vehicle in front until it comes to a complete stop, if the stop is less than two seconds.

FORWARD COLLISION WARNING PLUS

This monitors vehicles ahead and warns if the approach could result in a rear-end collision. This is linked to the Advanced Brake Assist system, which provides additional braking during an emergency stop. If the warning does not prompt any action from the driver, the Autonomous Emergency Braking system automatically applies the brakes to reduce the car's speed.

REAR CROSS PATH FUNCTION

This is a welcome feature that emits a warning when an unseen vehicle is approaching, from the right or left, while reversing out of a parking space.

FRONT AND REAR PARKING SENSORS AND REVERSING CAMERA

To assist with manoeuvring in tight spaces, the Levante has parking sensors in the front and rear bumpers. Beeping noises increase in frequency as the obstacle approaches, while the TFT display in the centre of the instrument panel shows the car

surrounded by symbols which light up in green, yellow or red depending on the remaining distance. In addition, there is an optional rear-view camera to capture a view of what is behind the car.

HILL HOLDER

This system uses on-board sensors to detect the vehicle's angle when parked facing uphill and briefly maintains braking pressure to allow the driver sufficient time to release the brake pedal and accelerate before the car rolls backwards.

HILL DESCENT CONTROL (HDC)

HDC allows for a smooth and controlled hill descent on snow or rough terrain without the driver needing to touch the brake pedal. If the vehicle accelerates with no input from the driver, the system will automatically apply the brakes to slow to the desired speed, which is set using the Cruise Control buttons. Applying pressure to the accelerator or brake pedal instantly overrides the system.

GranSport

maserati

Comprehensive SAFETY

Every Maserati is designed and built to provide world-class levels of safety and peace of mind. Here are the main features offered by the Levante.

THE MASERATI STABILITY PROGRAM

Developed in the most extreme test conditions, the Maserati Stability Program (MSP) uses an array of sensors to constantly monitor driving status. It can then deploy a host of safety and performance systems to maintain handling and grip. If, for instance, a skid is detected, MSP selectively reduces engine torque and can activate the brakes with finely varied inputs to restore stability within milliseconds.

The MSP system also works in harmony with functions including Anti Slip Regulation (ASR), which reduces wheel spin and improves traction, and engine torque brake control (MSR) that prevents the wheels from locking up when suddenly changing down. Additionally, anti-lock brakes (ABS) and Electronic Brakeforce Distribution (EBD) stop the wheels from locking and distribute

brakeforce between the front and rear axles. Further support is provided by the Brake Assistance System (BAS). This recognises emergency stops and boosts the pressure in the hydraulic circuit to maximise stopping power. A Hill Holder, meanwhile, helps the driver when starting off on an uphill slope.

INTEGRATED VEHICLE CONTROL

It's often better to be proactive, rather than reactive – especially when it comes to driving dynamics. Integrated Vehicle Control (IVC) anticipates any issues that could cause instability and counteracts them in the blink of an eye. The system works by selectively reducing engine torque and applying brakeforce to individual wheels as required. The result, out on the open road or through sweeping twists and turns, is increased safety, greater driving enjoyment and potentially higher speeds.

FULL-LED ADAPTIVE MATRIX HEADLIGHTS

Beyond just offering distinctive style to the appearance of the Levante, the newly available Full-LED Adaptive Matrix headlights deliver additional safety and convenience for the driver and other road users. With 15 LEDs operating at full beam, these headlights offer a 200% greater field of vision than traditional halogen lights. The ingenious system, which includes an Adaptive Driving Beam, cleverly turns corners before you do and instantly responds to other road users to avoid dazzling them.

Rather than simply dipping the headlights automatically, the glare-free High Beam function allows the full beam to continue shining without any danger of affecting oncoming vehicles. It achieves this feat by creating a 'light tunnel' which directs the light away from other vehicles. The system is capable of creating up to four light tunnels simultaneously, with each one being as large as an oncoming vehicle.

TYRE PRESSURE MONITORING SYSTEM

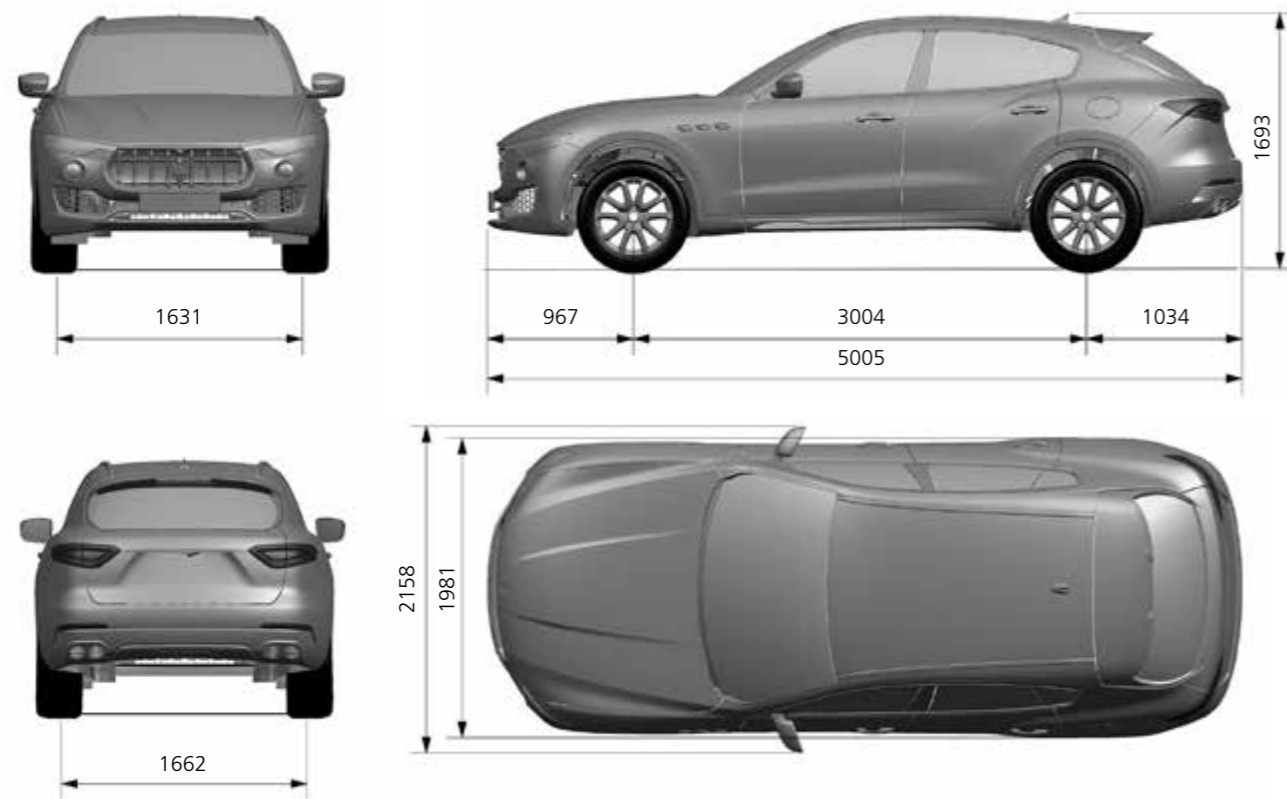

The system, standard on all Levante versions, continuously monitors tyre pressure using a sensor integrated with the valve. The pressure can be read on the dashboard display. In the case of a puncture or a change in tyre pressure, the system notifies the driver with visual and acoustic warnings.

SIX AIR BAGS

The Maserati Levante comes equipped with six air bags. Two front air bags, both dual-stage, shield the driver and front passenger in the event of a collision, while their torsos and hips are further protected by two side bags located in the front seats. There are also two window air bags fitted in the roof lining next to the central pillar that cushion the heads of the front and rear passengers if the car is struck from the side.

A WORLD OF MASERATI

BECOME A MASTER OF DRIVING

MASTER MASERATI DRIVING COURSES

All Maserati cars embody the principles of GranTurismo. Race-bred performance combines with hand-crafted comfort to turn every journey into an unforgettable experience. Our Master Maserati driving courses are designed to help you unleash the full potential at your fingertips – whatever your ability or experience, whatever the terrain.

Master Maserati driving courses also reflect the principles that guide everything we do. We offer, for instance, tailored one-to-one instruction from championship-winning drivers who provide coaching from the passenger seat as you drive – an experience that’s rare to find in our industry. You can enjoy the entire Maserati model range in depth and in safety, alongside the GT4 race car and the MC12, a six-time GT1 world champion. Advanced technology, such as telemetry and video analysis, makes each experience truly immersive and rewarding.

Master Maserati courses are held at the Varano de’ Melegari (Parma) circuit, a track with first-class safety standards and superb on- and off-road facilities nestled in beautiful Italian countryside. We very much look forward to welcoming you there soon.

MASTER ON TRACK

PRACTICE

MAKE YOUR FIRST DECISIVE MOVE

Imagine a Formula 1 practice session. Now put yourself in the driving seat. This is where your journey begins. With this course, you’ll learn the fundamentals of track driving while safely exploring the performance limits of the full Maserati range – Quattroporte, Ghibli, Levante, GranTurismo and GranCabrio. The half-day programme on the Varano circuit includes theoretical and dynamic sessions with our expert drivers. On completion, you’ll be perfectly prepared for our full-day Qualifying course.

QUALIFYING

RAISE THE INTENSITY, RAISE THE PACE

Now you’re on the quest for faster lap times – just like an F1 qualifying session. This full day involves intense driving sessions focused on sharpening technique and further developing your ability. At this driving level, we introduce detailed video analysis and vital insights from racing telemetry that will help you fine-tune your skills – and improve those times.

RACE

HIT THE TRACK IN A TRUE RACE CAR, THE GT4

The lights are green. It’s time to race. You’re ready to experience the raw excitement and adrenaline of being a Maserati racing driver. First, you’ll get to know the Maserati GT4 race car inside and out. Then, following one-to-one coaching from an expert driver, you’re ready to hit the track and put the car through its paces. As with professional motor sport, you’ll be supported by an expert team, from seasoned mechanics to telemetry experts.

CHAMPIONSHIP

REACH THE TOP, GET A TASTE OF THE LEGENDARY

MC12 VERSIONE CORSE

Are you ready to enrol in the masterclass of Maserati motor sport? This exclusive two-day programme helps you perfect your style as you push the performance boundaries. You won’t just drive GT4 Maserati race cars, though. You’ll also experience hot laps in the legendary MC12. Your driver will be none other than Andrea Bertolini – four-time world champion in this magnificent and iconic car.

MASTER OFF ROAD

RALLY SHAKEDOWN

TAKE A DRIVE ON THE WILD SIDE

An introduction to the art of off-roading in the Maserati of SUVs – the Levante. In this half-day course, you take on the challenges of the Varano circuit’s private nature reserve. This is real-world all-terrain driving, complete with deeply rutted trails, steep inclines, ramps and natural obstacles. Your expert driver will show exactly how the high-riding, technologically advanced Levante keeps you in control – however rough it gets.

RALLY POWER STAGE

IMMERSE YOURSELF IN EVERY POSSIBILITY

A day of adrenaline – on and off the road. This one-day course is your chance to experience the best that Maserati offers in any driving situation. You’ll push the limits on rough and low-grip surfaces in the Levante and, before there’s time to catch your breath, you’ll be putting your skills to the test on the circuit in all Maserati models. Along with the expert support and guidance from our championship-winning drivers you’ve come to enjoy from Master Maserati.

MASTER INCENTIVE

TAILOR MADE COURSES

Nothing bonds a team like the exhilaration and spirit of a Master Maserati driving course. What’s more, we can tailor them to exactly suit the interests and aims of your business or team, and we welcome groups of any size for the number of driving days they’d prefer. For instance, we can provide instruction on the basics of track driving or how to become a racing driver. We offer guidance from expert drivers, one-to-one coaching, video, telemetry recording and the full support of a crew. The driving can also be combined with cultural programmes and activities, including a visit to the Panini Motor Museum in Modena, culinary experiences and a Maserati factory tour. For your added convenience, we offer a range of supplementary services, from organising hotels to airport transfers.

ARE YOU READY TO MASTER MASERATI?

For information on availability, pricing, timing and registration, please contact us at info@mastermaserati.it

FINANCIAL SERVICES AND CUSTOMER PROGRAMS

FINANCIAL SERVICES

Official Maserati dealers will be delighted to provide you with expert advice on the various payment options available and create a package tailored precisely to your requirements.

Our new Customer Programs* are designed to improve your experience in emergency situations.

HEALTH SERVICE PROGRAM

In the unfortunate event that you fall seriously ill while driving, simply call your local Maserati Assistance Centre and they will organise transport back to your home address by aeroplane, train or ambulance. If you are driving alone, a family member can also be sent to join you. If you are travelling with family, their transport home will be arranged.

FULL CREDIT SERVICES

Stay on the road while your car is being repaired – with our Full Credit Service, you'll be behind the wheel of a courtesy car in no time. Our Light service, available to every Maserati customer, simplifies the process of renting a replacement car. Geo maps, snow chains and child seats are included free of charge, so you can focus on enjoying the drive. Our Premium service, exclusively for owners of a Quattroporte, GranTurismo, GranCabrio or 430 CV-plus Levante, also covers fuel and insurance excess costs. You won't even need to present your credit card, allowing you to experience the ultimate care-free driving experience.

* Service availability to be confirmed. For more information, please contact your dealer or Maserati Customer Service at info@maserati.com

THE WORLD OF THE TRIDENT

FACTORY TOUR*

Learn about the skills involved in producing some of the world's most stylish sports cars by visiting the Maserati plants in Turin and Modena. The exclusive, 90-minute factory tour includes a welcome reception in our showrooms and a presentation of over 100 years of heritage. This is followed by a guided walk around the assembly line and the opportunity to view the cars and browse the Maserati store.

Showroom tour (Modena only): for those short of time, there is the option of a 40-minute guided showroom tour. After a welcome reception and a presentation of our illustrious heritage, your guide takes you through the entire model range on display in the Modena showroom. Commentary can be provided in English, Italian, German, French or Spanish. Chinese and Japanese are also available at the Turin factories. It is also possible to combine the Maserati Factory Tour with a Master Maserati driving course and experience the entire world of Maserati. For more information on how to arrange a Factory Tour, please contact: factorytour@maserati.com.

FACTORY DELIVERY EXPERIENCE

The first drive in your new Maserati deserves to be savoured – and there's no better starting line than the birthplace of the car itself. Your event begins at the Maserati showroom. After a warm welcome from a Maserati representative – complete with coffee and drinks – you can choose to take a 90-minute tour of the production line, accompanied by a specialist guide and photographer. After the tour, it's time for the unveiling of your car and a complete explanation of its features. Then you sign the documentation to officially take ownership of your vehicle. Before we bid you farewell, the photographer takes some final pictures at the exit of the Maserati facilities. The photos from the tour are then used to create a commemorative album, sent to your address. The full experience – including the Factory Tour – lasts between 2.5 and 3 hours.

Where can we deliver?

All models can be delivered to Modena. By the end of 2018, the Quattroporte, Ghibli and Levante will be available for delivery in Turin.

How to book

You can request a factory delivery through any official Maserati dealer when you place your car order. Around one month before the delivery we will then agree a date for the car pick-up.

MASERATI COLLECTION

The Maserati Collection of exclusive leisurewear and branded merchandise has been specially created for those with a passion for all things Maserati. Maserati Collection items are available from all Maserati dealers and the Maserati Store at the Modena showroom. Alternatively, they can be purchased online at www.maseratistore.com and delivered directly to your home.

MASERATI CLUB

Joining the exclusive Maserati Club means sharing insights, experiences and all the excitement with other Maserati owners – and being invited to take part in special motoring events all over the world. Drivers of cars from every era can enjoy the pleasure of driving their Maserati models in a calendar of events created especially for Maserati Club members. The Club provides the link between the company's past, present and future. Visit www.maseraticlub.com for more information.

MASERATI GENUINE ACCESSORIES

Specially conceived to satisfy our customers' needs, the Maserati Genuine Accessories are a perfect combination of design and functionality. The attention to detail, style and quality of each individual Levante accessory reveal the very essence of the Maserati brand, always searching for the perfect balance between comfort and performance. Developed to

fully enjoy the spaciousness and functionality of the car in any situation, the Maserati-branded transport systems include accessories such as the Roof Luggage Box, Bike Carrier and Luggage Compartment Mat. Added to the range are practical safety accessories, such as the MGT (Maserati Genuine Tyres) branded tyres and Car Covers. You can discover the full range of Maserati Genuine Accessories in the dedicated brochure, on the official website (www.maserati.com), or through the Official Maserati Network of dealers and service centres.

MASERATI CLASSICHE

Created for enthusiasts and owners of vintage Maserati cars, Maserati Classiche is an organisation dedicated to those who wish to engage with the marque's glorious past. The Maserati Classiche range includes products that celebrate the company's history: paintings of glorious events, pictures of classic Maserati models, original reproductions of parts catalogues, owners' handbooks and old brochures, clothing, scale models and much, much more. All the latest items can be found on www.maserati.com in the Maserati Classic section.

For more information, email maserati.classiche@maserati.com.

*Tours are arranged by appointment only and can be booked through dealers all over the world.
